Aware of the legal consequences in case of false declarations

DECLARER

✓ That they have not been in contact with positive people, as far as they know, in the last 14 days;
✓ not to be subjected to quarantine or fiduciary isolation;
✓ not to come from areas at risk according to the conditions of the WHO or the Authorities and to have complied with all the measures provided for the Country of origin (fiduciary isolation and/or swab);

S/HE MUST

✓ After the release of this self-declaration, not to access the university spaces if s/he has been in contact with positive people in the last 14 days, if subjected to quarantine or fiduciary isolation, if coming from areas at risk according to the conditions of the WHO or the Authorities;
✓ To remain at home in the presence of fever above 37.5°C or symptoms of acute respiratory infections (cough, cold, etc.) and to call your doctor and the health authority;
✓ Not to remain in universities where symptoms of acute respiratory infections occur after admission;
✓ To promptly notify the International Mobility Office for the activation of the related safety protocols, in the event of severe symptoms compatible with the onset of Covid-19 disease;
✓ To comply with all the provisions of the health authorities and UNIMC for access and stay in universities, in particular: keep a safety distance of 1 meter, wear a surgical mask for the entire time spent in the university spaces (classrooms, laboratories, lifts, bathrooms, etc.), often sanitize your hands using the special dispensers;
✓ To access the classrooms and services subject to limited access only after booking through the use of the App or other tools made available by the University;
✓ To sit in the classrooms and study areas, only in the permitted sessions highlighted by special signs;
✓ To avoid gatherings, in particular in and out of classrooms and universities, and in front of student secretariats;
✓ For “working” students according to Legislative Decree 81/08, who have already tested positive for SARS-CoV-2 for which hospitalization was required, to send the competent doctor the medical certificate showing the negativization of the swab to be subjected to health surveillance before resuming work and therefore entering UNIMC spaces.

I am aware that compliance with these rules constitutes a precise individuals and social responsibility and that everyone is therefore called to rigorously apply the indications formulated, to protect themselves and the community.
