

## Allegato 1 – Bando di Ateneo per il finanziamento di progetti di ricerca proposti da Early Career Researchers

### Proposal template

- **Title:**
- **Acronym:**
- **Principal Investigator (PI):**
- **Co-PI:**
- **Project duration (up to 18 months):**
- **ERUA thematic priorities (tick as appropriate):**
  - Migration
  - Exile and Refugees
  - Democracy and human rights
  - Inclusion & Gender Equality
  - Interculturality and Multilingualism
  - Arts and Edges
  - Environmental transition
- **Sustainable Development Goals (SDGs) (tick as appropriate):**
  - 1. No Poverty
  - 2. Zero Hunger
  - 3. Good Health and Well-being
  - 4. Quality Education
  - 5. Gender Equality
  - 6. Clean Water and Sanitation
  - 7. Affordable and Clean Energy:
  - 8. Decent Work and Economic Growth
  - 9. Industry, Innovation, and Infrastructure
  - 10. Reduced Inequalities
  - 11. Sustainable Cities and Communities
  - 12. Responsible Consumption and Production
  - 13. Climate Action
  - 14. Life Below Water
  - 15. Life on Land
  - 16. Peace, Justice, and Strong Institutions
  - 17. Partnerships for the Goals
  - None
- **Abstract (max 200 words):**
- **Context and Project Vision (overview of the project, state of the art, originality and innovation) (max 600 words):**
- **Objectives and Methodology (Describe the research objectives and the methodological approach) (max 600 words):**
- **Description of activities (max 600 words):**

- **Budget**

<b>Expenditure item</b>	<b>Description</b>	<b>€</b>
a) Publications		
b) Travels (outgoing)		
c) Travels (incoming) and Events		
d) Licences and subscriptions		
e) Services		
<b>Total</b>		

### **Declaring the use of AI tools**

- Applicants **must disclose all uses of generative AI** in the preparation of the proposal.
  - Acknowledge the AI tool whenever text or images generated by it are incorporated into your proposal.
  - Disclose functional uses (e.g. for translation, style, length, etc.) of AI tools.
- Please read the European Commission’s [Living Guidelines on the Responsible Use of Generative AI in Research](#). The Commission draws a **distinction between substantial and non-substantial use of GenAI**: *“using generative AI as a basic author support tool is not a substantial use. However, interpreting data analysis, carrying out a literature review, identifying research gaps, formulating research aims, developing hypotheses, etc. could have a substantial impact.”*
- AI-generated content should be **thoroughly validated by the applicants** to ensure its **appropriateness and accuracy**.
- **Applicants are fully responsible for the content of the proposal.** The use of AI does not exempt you from complying with rules regarding plagiarism and intellectual property.

### **Statement on the use of AI (if applicable)**
